

# **Ships Having Moonpools**

## **Amended Guidance**

Guidance for the Survey and Construction of Steel Ships Part V

## **Reason for Amendment**

When the IACS Unified Interpretations (UIs), which had not been implemented into the relevant classification rules were implemented, in accordance with IACS Procedure No.31, UI LL53 was left over since that UI was under review.

Accordingly, after confirming the appropriateness of UI LL53, the relevant requirements were amended in accordance with UI LL53.

## **Outline of Amendment**

- (1) Procedures of the freeboard calculation for with ships having moonpools were specified.
- (2) For ships not subject to the provisions of the 1988 Protocol, it was stated that IACS UI LL53 applies to those ships in the assignment of the freeboard.
