

Subject:

Unification of Naming of Some
Machinery for the Purpose of
Computer Coding of the C.M.S.
Record Sheets

NK TECHNICAL INFORMATION

No. 10

Date: 15 October 1983

To All Shipowners:

The society has been forwarding computer output sheets of the records of continuous machinery surveys (C.M.S. Records) attached to NOTICE OF SURVEY STATUS quarterly to the shipowners. In this C.M.S. Records it can be seen that there are quite a few machinery which have the same purpose of use but a different name from ship to ship.

In order to minimize the number of those variously named machinery for computer coding purpose, the Society has introduced the unification of naming of some machinery in the C.M.S. Records.

For your easy reference, attached hereto is TABLE OF REFERENCE which shows how the newly unified names of some machinery represents the variously expressed names used so far according to each group of use of the machinery.

Your kind attention is invited that from now on the newly unified names of the machinery as shown in the TABLE OF REFERENCE will be used in the Society's C.M.S. Record sheets and also in the relevant survey reports to be prepared by the Society's surveyors. It would be appreciated if you would kindly forward this information together with the TABLE OF REFERENCE to all ships owned by your company.

Should you have any question on the matter, please do not hesitate to contact Survey Report Section, Classification Department of the Society's Head Office.

attach.

TABLE OF REFERENCE: NEWLY UNIFIED NAME OF MACHINERY

(THE FOLLOWING UNIFIED EXPRESSIONS WILL BE USED IN THE SOCIETY'S C.M.S. RECORD SHEETS TO
(THE MACHINERY WHICH HAVE THE SAME PURPOSE OF USE BUT ARE VARIOUSLY NAMED FROM SHIP TO SHIP)
