

Subject :

FIRE EXTINGUISHING ARRANGEMENTS
OF PAINT LOCKERS AND FLAMMABLE
LIQUID STORES FOR HONG KONG
FLAG SHIPS
(Reg.18.7 of Chap. II-2, SOLAS)

NK TECHNICAL INFORMATION

No. : 115

Date : 28th April 1993

TO : Shipowners and shipbuilders concerned

Please refer to the previous NK Technical Information No.108 dated 28th October 1992. We have received instructions from the Marine Department of Hong Kong regarding the fire extinguishing arrangements of paint lockers and flammable liquid stores for Hong Kong Ships. In pursuance of the instructions, you are kindly requested to make arrangements or take actions with the matter as follows;

1. Requirements for the existing ships

- 1) Any existing ships which do not have arrangements for fire protection of paint lockers should be retrofitted as soon as possible.
- 2) Existing ships with existing arrangements which do not comply with the requirements may be accepted until the next dry docking, at which time suitable modifications should be made.

2. Drawings for approval

- 1) At least 4 sets of drawings for new installations or modification to existing installations for the subject are to be submitted to the Society for approval.
- 2) If a fixed fire extinguishing arrangement has been already installed without the drawing approval, you are kindly requested to submit 4 sets of drawings to the Society, as it is necessary to obtain the approval of drawings.
