

Subject:

Pyrotechnics contained in
inflatable liferafts
for Liberian Ships

NK TECHNICAL INFORMATION

No. 21

Date: 9 July 1984

To Shipowners and Shipyards concerned

Pyrotechnics contained in the equipment listings for inflatable liferafts should be renewed, where necessary, at the time of annual services.

We have the pleasure in informing you of the instructions which the Liberian Government has recently issued, i.e., where pyrotechnics contained in an inflatable liferaft exceed the three years limitation on usage between annual services, they need not be replaced before the next annual service of the inflatable liferaft provided that this is before four years after the date of manufacturer of the pyrotechnics.

Regards
