

Subject:

Explanatory Notes on Continuous
Machinery Surveys and Continuous
Survey of Cargo Refrigerating
Installations

NK TECHNICAL INFORMATION

No. 36

Date: 17 June, 1985

To Shipowners and Shipbuilders concerned

The Society has revised the procedure for Continuous Machinery Survey (CMS) in the 1984 edition of the Rules.

Enclosed please find a copy of the above named booklet, appended by new application form, for the purpose of your better understanding the new procedure. The Procedure for Continuous Survey of Cargo Refrigerating Installations (CSR) is also included in this booklet.

The revised procedure is effective as of this date, and your kind perusal of this "Explanatory Notes" would be highly appreciated in order for you to apply this survey systems effectively.

Should you have any question on the above, please contact the head office or any exclusive surveyor's office of the Society without hesitation.

Encl.
