To whom it may concern

Marshall Islands Administration had changed the definition of "Bulk Carrier" on SC / SE / SF Certificates (for the vessels which keel was laid on or after 1st July 2006) from Regulation 1.6 of Chapter IX to Regulation 1.1 of Chapter XII.

As a result of the above, "Marshall Islands" have been deleted from Item 2. (2) of No.TEC-0808 (dated on 1 April 2010).

"Type of ship" described in Ship Safety Construction Certificate and Ship Safety Equipment Certificate for the captioned existing vessels has been rewritten at Head Office (CLD) in accordance with the instruction of Marshall Island Administration.

For any questions about the above, please contact:

Subject

Change of ships which are categorized as “Bulk carrier” on Safety Construction Certificate (SC) and Safety Equipment Certificate (SE) because of the clarification of term “Bulk carrier”.

To whom it may concern

1. General

Clarification of the definition of “Bulk carrier” in SOLAS has been adopted at IMO resolution MSC.277(85), but this resolution is not mandatory one. Therefore, ClassNK made a judgment that a ship categorized as “Bulk carrier” on SOLAS certificates is to be changed according to the mandatory resolution MSC.170(79) which clarifies the definition of “Bulk carrier”.

A ship which should be categorized as “Bulk carrier” on the SE and SC certificates would be changed from A) to B) as below.

A) a ship which is constructed generally with single deck, Top-side tanks and hopper side tanks in cargo spaces, and is intended primarily to carry dry cargo in bulk, and includes such types as ore carriers and combination carriers. - Reg.1.6/IX

B) a ship which is intended primarily to carry dry cargo in bulk, including such types as ore carriers and combination carriers. - Reg.1.1/XII

2. Application

(1) For ships which were constructed on or after 1 July 2006 and have a notation of “BC-XII” affixed to the Classification Characters, the description of “Type of Ship” on SC and SE certificate is to be changed as “Bulk carrier”, hereafter. Therefore, not only box type bulk carriers but also chip carriers, etc., which have “BC-XII” Notation Characters, are newly categorized as “Bulk carrier” (refer to Attachment 1). However, the Flag Administrations shown in below (2) declare that only the ships defined by the above A) should be categorized as “Bulk carrier” on SC and SE certificates, as before.

(2) Flag Administrations, who adopt the definition in the above A), as before.

- Cayman Islands*
- Qatar
- St. Vincent & the Grenadines
- Vietnam

*: It remains possible that the ships defined by above B) are categorized as “Bulk carrier” by the judgement of Flag Administrations. If there is any alternation, ClassNK will issue a Technical Information.

(To be continued)
3. Statement for Non-compliance of the requirements for bulk carrier as specified in SOLAS Chap.IX

The following requirements of SOLAS are to be applied to “Bulk carriers” according to the definition in the above A), because these requirements refer to the definition of SOLAS Chap.IX. Therefore, ClassNK shall issue the statement for Non-compliance of these requirements at the same time of issuance of SC and SE certificates.
- Permanent Means of Access - Reg.II-1/3-6
- Enhanced Survey Program - Reg.XI-1/2

4. For ships which have been already delivered as of 1 April 2010

Re-written SC and SE certificates and the Statement of Attachment 2 shall be issued by the Classification Department in Head Office at no charge, in series. And ship owners or ship management companies are not requested to submit any application.

For any questions about the above, please contact:

Matters on the handling SC and SE certificate or statement

Attachment:
1. Ships type which is categorized as “Bulk carrier” by the definition of SOLAS Chap.XII.
2. Statement for Non-compliance of the requirement for bulk carrier as specified in SOLAS Chap.IX
Examples except for “SOLAS IX bulk carrier”.
(Regarding construction type, a ship which is intended primary to carry dry cargo in bulk is categorized as “Bulk carrier” in SOLAS.)
Statement

M.S.       “NK STAR”

Port of Registry : PANAMA
Distinctive Number or letters : H9AV
Gross Tonnage     : 73,427
IMO Number        : IMO 9233545
Class No.         : 012345

This is to certify that the subject ship does not fall under the definition of “bulk carrier” as specified in SOLAS regulation IX/1.6 and therefore is not subject to compliance with the following SOLAS requirements applicable to such “bulk carriers”:

- Permanent Means of Access (SOLAS regulation II-1/3-6);
- Installation of Free-fall Lifeboat (SOLAS regulation III/31.1.8); and
- Enhanced Survey Programme (SOLAS regulation XI-1/2).

This is to notify that the subject ship, however, falls under the definition of “bulk carrier” as specified in SOLAS regulation XII/1.1 (Resolution MSC.170(79)) and complies with the applicable SOLAS requirements, and therefore “bulk carrier” is indicated in “type of ship” of the Cargo Ship Safety Construction Certificate and Cargo Ship Safety Equipment Certificate.

NIPPON KAIJI KYOKAI

(Signature)

(N. Kaiji), Surveyor

Notes:

Cargo Ship Safety Construction (SC) and Safety Equipment (SE) Certificates:

The descriptions “bulk carrier” in the ship’s SC and SE Certificates are made based on the definition of SOLAS regulations II-1/2.14 and XII/1.6 which were added/amended by Resolution MSC.170(79).

Safety Management Certificate:

The description “bulk carrier” in the ship’s Safety Management Certificate is made based on the definition of SOLAS regulation IX/1.6.
**Definition the term of “bulk carrier” in SOLAS**

- SOLAS regulation IX/1.6 (Resolution 1 adopted by the 1994 SOLAS Conference)
  
  *Bulk carrier* means a ship which is constructed generally with single deck, top-side tanks and hopper side tanks in cargo spaces, and is intended primarily to carry dry cargo in bulk, and includes such type as ore carriers and combination carriers.

- Interpretation of the definition of “bulk carrier”, as given in chapter IX of SOLAS 1974, as amended in 1994 (Resolution 6 adopted by the 1997 SOLAS Conference)

  “URGES SOLAS Contracting Governments to interpret the definition of the term “bulk carrier”, given in regulation IX/1.6, for the purpose of the application of SOLAS regulation IX/2.1.2 and chapter XII to mean:
  
  - ships constructed with single deck, top-side tanks and hopper side tanks in cargo spaces, and is intended primarily to carry dry cargo in bulk; or
  - ore carriers; or
  - combination carriers;”

- SOLAS regulation XII/1.1 (before the amendments by Resolution MSC.170(79)*)

  *Bulk carrier* means a bulk carrier as defined in regulation IX/1.6.

- SOLAS regulation XII/1.1 (Resolution MSC.170(79)*)

  *Bulk carrier* means a ship which is intended primarily to carry dry cargo in bulk including such type as ore carriers and combination carriers.

- SOLAS regulation II-1/2.14 (Resolution MSC.170(79)*)

  *Bulk carrier* means a bulk carrier as defined in regulation XII/1.1.

* The amendments to SOLAS by Resolution MSC.170(79) apply to ships constructed on or after 1 July 2006.

---

**Requirements applicable to ships which fall under the definition of “bulk carrier” as specified in SOLAS regulation IX/1.6**

- Permanent Means of Access (SOLAS regulation II-1/3-6.1.1)

  This regulation applies to oil tankers of 500 gross tonnages and over and *bulk carriers*, as defined in regulation IX/1, of 20,000 gross tonnages and over, constructed on or after 1 January 2006.

- Installation of Free-fall Lifeboat (SOLAS regulation III/31.1.8)

  *Bulk carriers* as defined in regulation IX/1.6 constructed on or after 1 July 2006 shall comply with the requirements of paragraph 1.2.

- Enhanced Survey Programme (SOLAS regulation XI-1/2)

  *Bulk carriers* as defined in regulation IX/1.6 and oil tankers as defined in regulation II-1/2.12 shall be subject to an enhanced survey programme of inspections in accordance with the guidelines adopted by the Assembly of the Organization by resolution A.744.

- Management for the safe operation of ship (SOLAS regulation IX/1.6)

  *Bulk carrier* means a ship which is constructed generally with single deck, top-side tanks and hopper side tanks in cargo spaces, and is intended primarily to carry dry cargo in bulk, and includes such type as ore carriers and combination carriers.
